The **Lodi Winery Survey** will be emailed to Lodi winery managers in the winter of 2012.

The survey will ask for winery managers' perspectives on winery practices, regional and state outreach and education programs, and information resources.

The information collected by this survey will be used by the Lodi Winegrape Commission and other grower and vintner organizations to better serve the needs of Lodi and California wineries.

The survey was designed by UC Davis, the Lodi Winegrape Commission, and the California Sustainable Winegrowing Alliance.

The survey is funded by UC Davis Sustainable Agriculture Education and Research Program.

Thank you in advance for completing the survey, and for helping shape the future of Lodi and California's viticulture and wine industry.

Your opinion is important!

Your answers are anonymous!
